POINT OF CARE (POC)

EFFECTIVE SUPPORT FOR **HEALTH PROTECTION**
IN PUBLIC PLACES AND RETAIL

IDEA

"Business has to be constantly **evolving**. Instead of being a victim of unpredictable shocks, it has to use them to strengthen its resilience for the future".

Nassim Nicholas Taleb

The author of „The Black Swan” and „Antifragile”.

APPLINK

IDEA

APPLINK

Point of care

A line of innovative devices which effectively **support health protection** in public places by contactless hand disinfection and remote body temperature measurement.

APPLINK

WHY?

1

.....

SAFETY

It supports health protection in places with heavy movement of persons.

2

.....

DIAGNOSIS

It diagnoses and limits potential sources of threats for public health.

3

.....

PREVENTION

It reduces the risk of spreading viruses and bacterias in public places.

4

.....

RESPONSIBILITY

It encourages the sense of social responsibility.

5

.....

CULTURE

It shapes new habits in terms of common care of public health.

APPLINK

FOR WHOM?

...

A practical solution for public areas with heavy movement of persons.

shops
shopping centres
showrooms

airports
railway stations
petrol stations

hotels
restaurants
cafés

banks
offices
office centres

public institutions
conference centres
service points

APPLINK

SPECIFICATION

..... **Functions**

Body temperature measurement sensor
working remotely and activated automatically

27” LCD display monitor
with the function of marketing content broadcast

A disinfectant-spraying atomizer
with automatic activation of aerosol dose release

A sensor activating atomizer
by moving the palm of the hand close to the sensor

Materials

Dimensions:
240 x 230 x 1800 mm

An inspection opening
with electronics and stock of disinfectant

A housing made from steel
stainless and/or powder coated

Fixing anchors
firmly bolted to the ground

ADVANTAGES

- **Aerosol**
Built-in pump dispenses fluid under pressure, so that no liquid drips from the dispenser and the floor around the station is clean
- **Large liquid container**
A large container with liquid, even up to 10 liters, is enough for about 15 000 doses aerosol so the POC does not require frequent refilling
- **SMS / MAIL notifications**
The built-in APL150 controller records the level of fluid consumption and also sends notifications when the container needs refilling
- **Design and configuration**
Modern product shape, the possibility to configure functions according to customer needs and producing the outer body in any RAL color
- **Installation and power supply**
Possibility of permanent or mobile installation to the ground.
Supply possibility with a 220V network or with a built-in battery

APPLINK

VARIANTS

APPLINK

Point of care #1

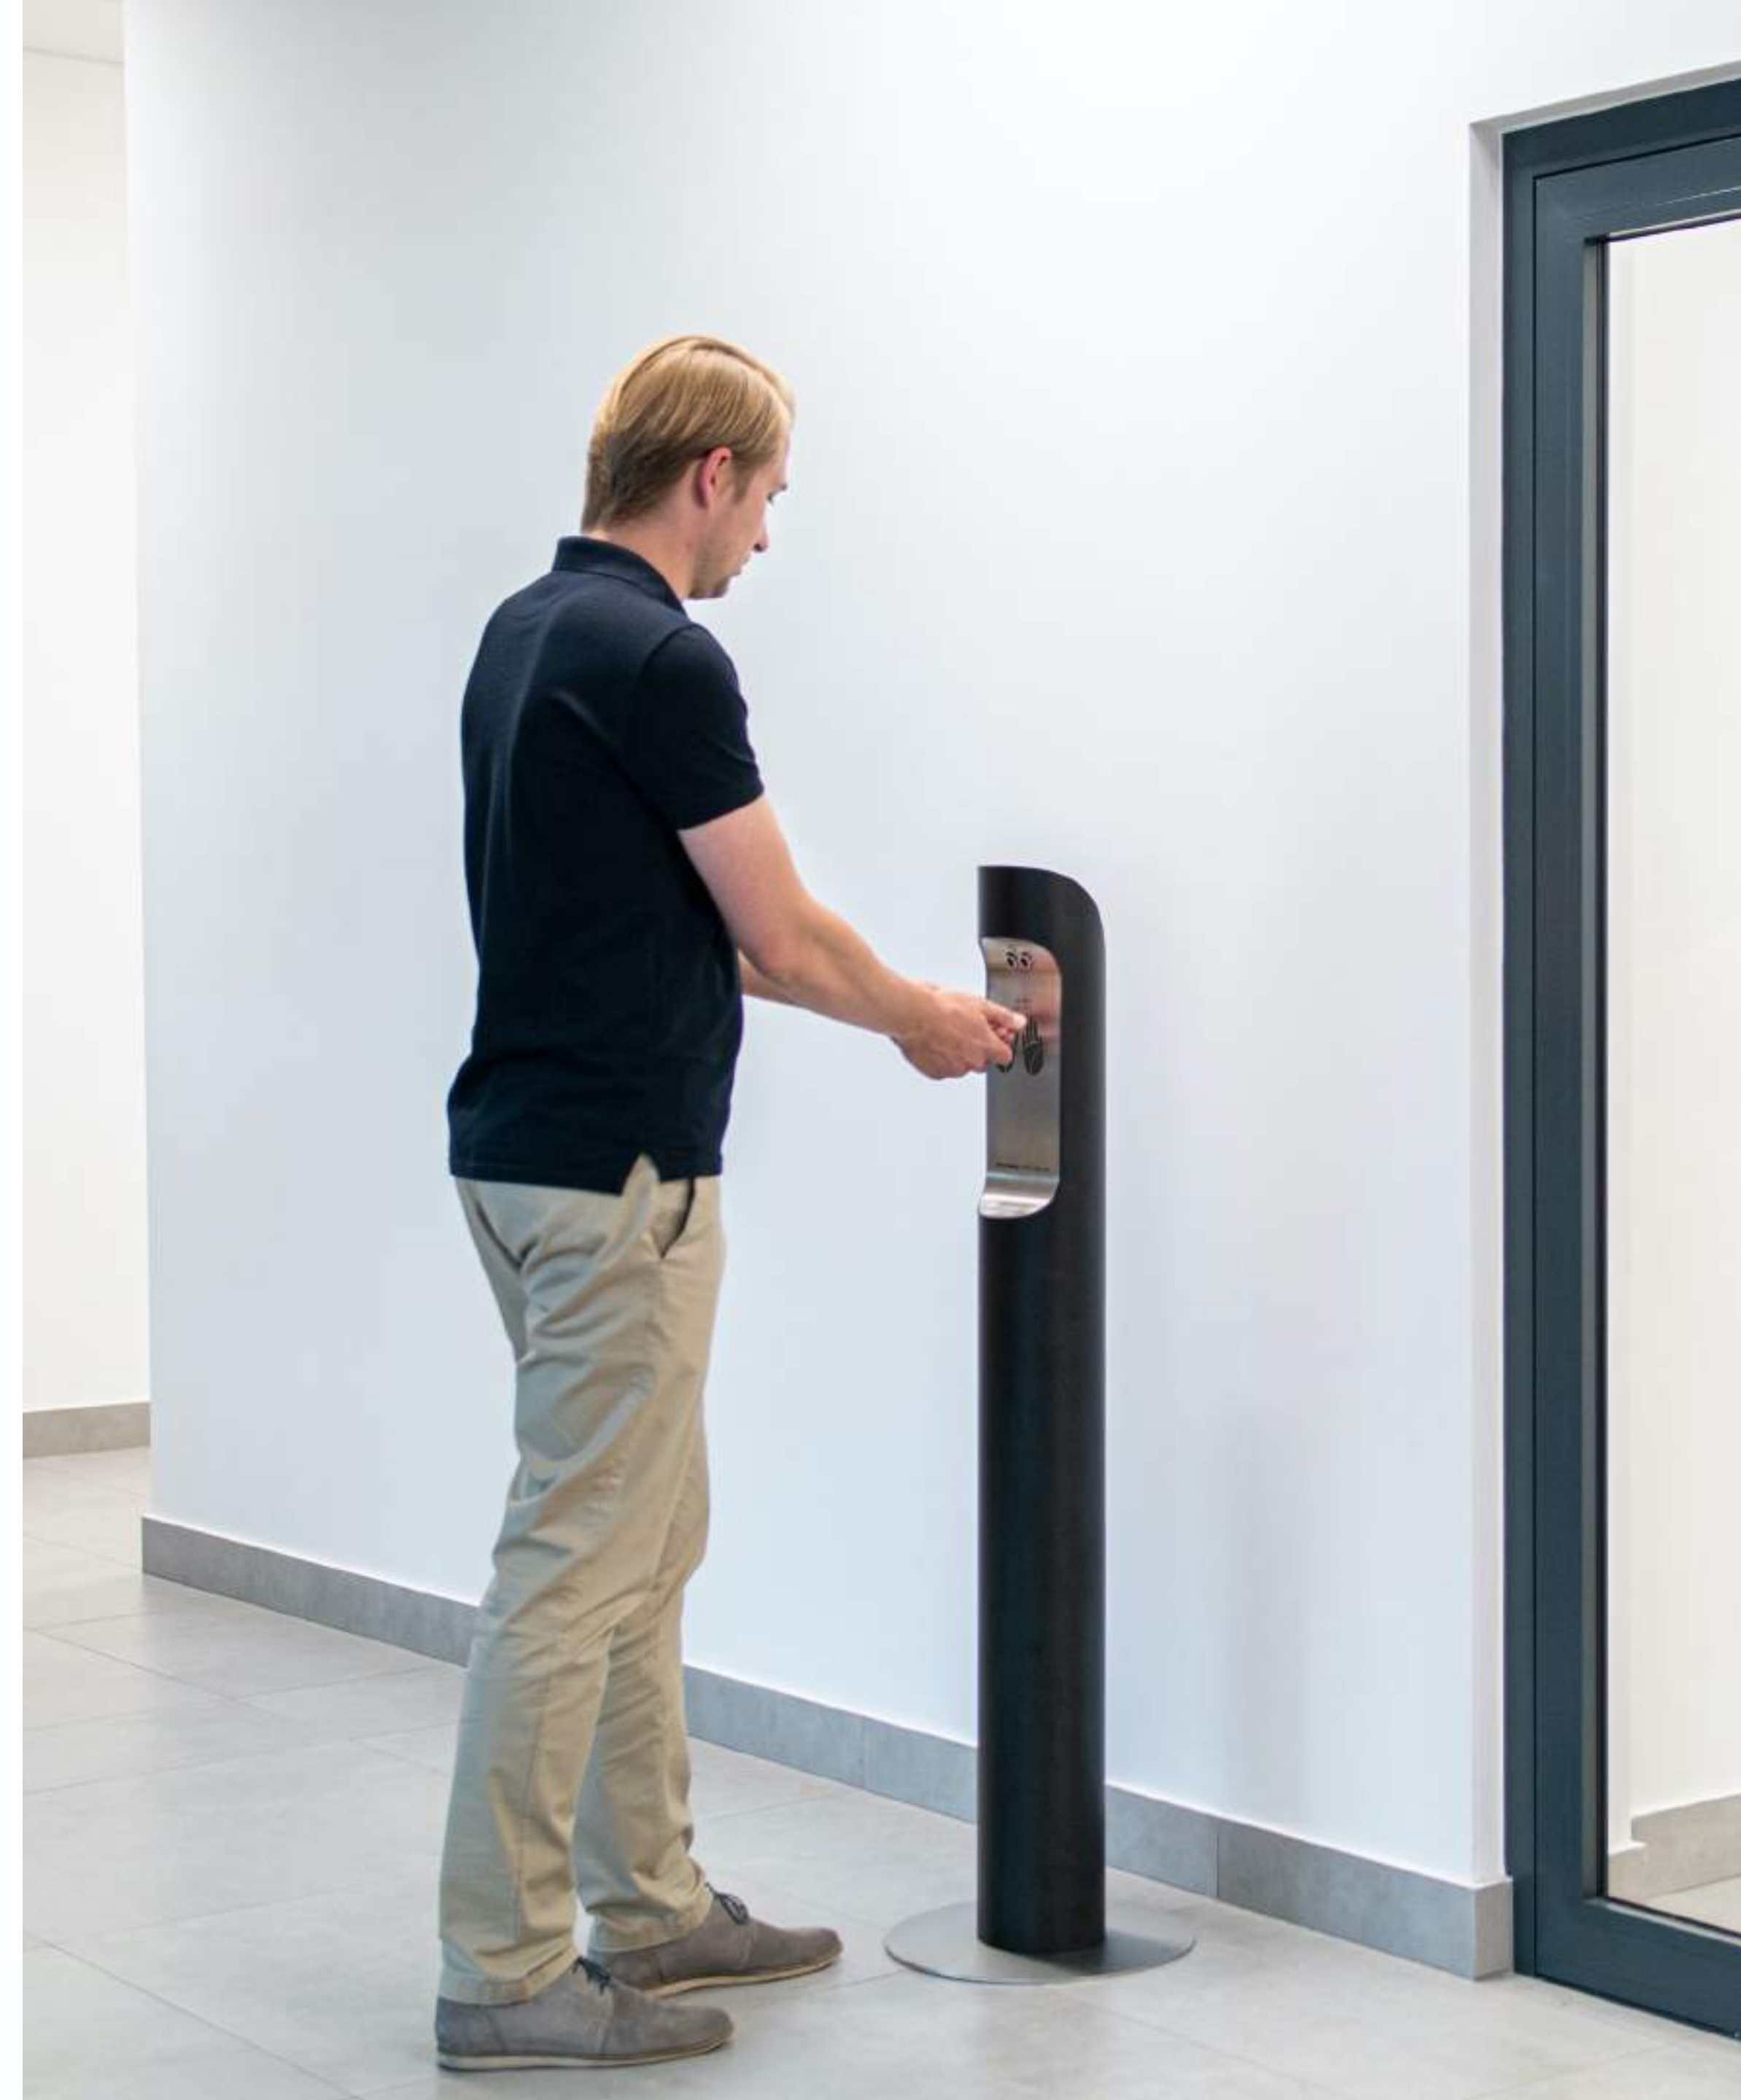

A compact free-standing variant with the function of hand disinfection by an automatically activated atomizer

SPECIFICATION

| | |
|--------------|---|
| DISINFECTION | an atomizer automatically dosing aerosol on hands |
| FINISH | stainless steel |
| DIMENSIONS | 150 x 1300 mm |

APPLINK

Point of care #2

A free-standing variant with the function of hand disinfection by an automatically activated atomizer

SPECIFICATION

| | |
|--------------|---|
| DISINFECTION | an atomizer automatically dosing aerosol on hands |
| FINISH | stainless steel |
| DIMENSIONS | 240 x 230 x 1800 mm |

APPLINK

POC #2

VARIANTS

APPLINK

Point of care #2B

A free-standing variant with the function of hand disinfection and remote body temperature measurement

SPECIFICATION

| | |
|--------------|---|
| DISINFECTION | an atomizer automatically dosing aerosol on hands |
| DIAGNOSIS | remote body temperature measurement |
| INFORMATION | LCD digital display |
| FINISH | stainless steel |
| DIMENSIONS | 240 x 230 x 1800 mm |

APPLINK

POC #2B

APPLINK

VARIANTS

APPLINK

Point of care #3

A free-standing variant with 27” LCD display monitor and the non-contact hands disinfection module

SPECIFICATION

| | |
|---------------|---|
| DISINFECTION | an atomizer automatically dosing aerosol on hands |
| INFORMATION | 27” LCD display monitor |
| ADVERTISEMENT | the possibility of marketing content broadcast |
| FINISH | stainless steel |
| DIMENSIONS | 240 x 230 x 1800 mm |

POC #3

APPLINK

Point of care #1c

Variant dedicated for kids

with safe and no-alcohol disinfection liquid

SPECIFICATION

| | |
|--------------|---|
| DISINFECTION | an atomizer automatically dosing aerosol on hands |
| FINISH | stainless steel |
| DIMENSIONS | 150 x 1000 mm |
